WANTED

**Dave Hoffmann:** I have been working at CEVA Logistics in The Hague for 19 years as an IT employee and I have over 14 years of experience as a member of works councils (EURO). I am also a member of the BVPP trade union. At first I was skeptical about trade unions, but I have experienced that the union is needed to make serious changes in the workplace. We as employees need the union for a good collective agreement. I therefore want to encourage everyone to become a member of the BVPP!
